

MILFORD CARE CENTRE, Limerick

Serving the people of the Mid-West

Development Staff Nurse, Specialist Palliative Care Community Services.

Development to Clinical Nurse Specialist

Job Summary

An exciting and new opportunity has arisen for a highly motivated, forward thinking staff nurse to join the specialist palliative care community service (SPCCS) at Milford Care Centre. We wish to appoint a dynamic nurse with outstanding communication and interpersonal skills. The successful applicant will have a passion for delivering the highest quality, holistic palliative care to our patients.

The successful candidate will be orientated to the five community bases, the inpatient unit and specialist palliative day unit in Milford care centre. The ideal candidate will have experience of working with patients who have palliative care needs and will now be working closely with a multidisciplinary team to meet the holistic needs of our patients and their families. The orientation period will be structured towards the acquisition of competencies. This will enable the successful candidate to meet the necessary requirements to apply for Clinical Nurse Specialist (CNS) in Palliative care posts.

Milford Care Centre is committed to ensuring that all specialist palliative care CNS's are trained to the highest level. As part of your development in line with the academic requirements of a CNS you will be required to undertake academic training. The post holder will work as part of the SPCCS nursing team, supported by CNM3s, CNS and SN colleagues, and as part of the wider MDT in SPCCS. An induction programme will be developed, tailored, and supported to meet individual learning needs.

About Us

Milford Care Centre is a voluntary not-for-profit organisation and registered charity. It was first established by the little company of Mary Sisters in 1928 and now provides Specialist Palliative Care and Older Persons Services in the Mid-West.

It is a leading provider of hospice care within Ireland, the centres commitment to palliative care and research is known throughout the world. The hospice team in Milford were the first centre outside of Australia to bring in the Palliative Care Outcome Collaboration (PCOC) suite of assessment tools. This enables specialist palliative care services to measure and better understand quality, safety and outcomes of care.

Milford Care Centre is committed to the education and development of its nurses to ensure that patients and their families receive outstanding, evidence based palliative care.
